Vertige™ Certification Program

ANALOG WAY®
Pioneer in Analog, Leader in Digital

○ Analog Way: Training offered to assist you

For more than 25 years, Analog Way has been a leading designer and manufacturer of innovative presentation switchers and image converters. As a video processing expert, Analog Way is committed to supporting its customers through training that's tailored to individual needs.

Whether you are an integrator, consultant or freelance technician, Analog Way offers training that will enable you to take full advantage of our AV processors in various environments.

○ Vertige™ Certification Program

The **Vertige™** console was designed to control a wide range of Pro AV devices, including the **LiveCore™** presentation mixers as well as the most popular PTZ cameras, video matrices and media players. These extended control capabilities make **Vertige™** perfectly adaptable to the most demanding events and installations.

With advanced functionalities and a neat design, the **Vertige™** Show Controller offers a comfortable and efficient working environment due to its large touch screen and many contextual keys.

To ensure a more creative and richer user experience, Analog Way has developed a training program dedicated to the **Vertige™** console. Whether you need to learn how to set up a show, remotely control external devices or make the best out of its interface, Analog Way offers training that will enable you to achieve your goals.

Vertige™
CERTIFICATION PROGRAM

○ Certified Training

By becoming a **Vertige™ Certified Operator**, you will obtain new skills; and consequently, you will be able to fully benefit from the power and creativity of the **Vertige™** Controller, notably when working with the **LiveCore™** AV Processors.

You will also join the **Vertige™ Certified Operators** directory, and your expertise will be officially recognized by professionals in the Pro AV market.

🗨 Objectives:

- Discover the extensive control capabilities of the Vertige™ console
- Master the set-up of elaborate shows
- Master the console interface and control of a live event
- Become a **Vertige™ certified operator**

🔍 Target Audience:

(Training exclusively intended for video professionals)

- Technicians/Freelance operators
- Integration companies
- Event contractors
- Consultant offices
- End users

📋 Prerequisites:

- This training is only opened to operators who successfully passed a **LiveCore™** certification (advanced or expert levels)

○ Advanced Operator: Two days – Certified Training 🎓

The first training day is dedicated to the presentation of the **Vertige™** console and the configuration and control of a basic event.

The second day focuses on the most advanced features, including the control of third-party controllers such as matrices, media players and PTZ cameras.

At the end of the session, after passing theoretical and practical tests, participants will obtain their official **Vertige™** certification, demonstrating a good command of the console

○ Analog Way's Training Centers:

A room has been especially designed at Analog Way's headquarters for training purposes. The **Vertige™ Certification Program** is also delivered by our American and Asian subsidiaries. If needed, training can be directly provided on your site.

○ Network of Certified Trainers:

In order to reinforce its training offer and to deliver local support, Analog Way leans on a network of certified partners. The training program complies with quality standards defined by Analog Way. Training is provided by **LiveCore™** and **Vertige™** system experts who have themselves been trained and certified by Analog Way's product experts.

○ Contact:

To stay tuned for upcoming training dates, please refer to Analog Way's website and connect with us on social networks.

Our teams remain at your disposal to evaluate your demand on specific training.
