

Analog Way Now Shipping LivePremier™ Series, The Game-Changing 4K/8K Live Presentation Systems

Analog Way is now shipping its powerful LivePremier™ 4K/8K live presentation systems with a feature-rich and stable v1.0 software release.

Analog Way is pleased to announce the immediate availability of its game-changing LivePremier™ series, a full range of premium 4K/8K multi-screen live presentation systems, designed to deliver unrivaled presentation performance to high-end staging and premium system integration.

Analog Way also released version 1.0 of the revolutionary LivePremier™ software, packed from day one with an impressive amount of features. Extensive and rigorous field-testing campaigns conducted around the globe in a variety of demanding and mission-critical AV applications have confirmed that the system is highly stable and reliable.

Unveiled for the first time at this year's Integrated Systems Europe in Amsterdam, the LivePremier™ series includes four pre-configured products (Aquilon RS1, RS2, RS3 and RS4) and two fully customizable models (Aquilon C and C+). The LivePremier™ series is currently available for sale through Analog Way's usual distribution channels worldwide.

About Analog Way

Analog Way is a world-leading designer and manufacturer of innovative equipment dedicated to the professional audiovisual industry. For 30 years, Analog Way has developed and manufactured a wide range of high-end solutions and reliable equipment for professional AV applications, including videowall processors, mixers and seamless presentation switchers, media servers, event controllers and multi-format converters. In February 2019, Analog Way launched LivePremier™, a new series of ultra-powerful 4K/8K live presentation systems for high-end staging and premium system integration. Analog Way solutions help deliver uncompromising video presentation experiences to customers in the Rental & Staging, Corporate, Broadcast, Institutional, Higher Education and House of Worship markets worldwide.

Outstanding Performance

The LivePremier™ series offers versatile 4K digital connectivity, unmatched real-time 10/12-bit 4:4:4 video processing power, best-in-class image quality and pure 4K60p on each input and output with ultra-low latency. The LivePremier™ series also features unique capabilities such as audio embedding/de-embedding and native Dante™ audio routing and up to 120-megapixel throughput at a 10-bit 60Hz, which makes it the most powerful live presentation switcher on the market.

Industrial-Grade Reliability

Specifically engineered to perform to the highest standards in mission-critical applications and road-hardened to survive frequent shipping and the toughest live event environments, the LivePremier™ series combines a heavy-duty modular design, best-in-class components chosen for their proven reliability and redundant hot swappable power supplies to deliver 24/7 performance and total peace of mind.

Highest Versatility and Flexibility

The modular design of the LivePremier™ series allows easy swapping of I/O cards to accommodate a variety of connectivity arrangements, including HDMI 2.0, DP 1.2, 12G-SDI as well as future potential connections such as fiber optics and single-cable 8K. In its largest chassis configuration, Aquilon can accommodate up to 24x 4K60 inputs and 20x 4K60 outputs, configurable as single screens, edge-blended widescreens or scaled auxiliary outputs, two dedicated Multiviewer outputs and up to 24x 4K freely assignable layers.

Unparalleled User Experience

In order to offer the shortest setup times and ensure flawless control of multi-screen presentations, the LivePremier™ series features a totally new, cutting-edge HTML5-based user interface. Conceived to greatly increase productivity and reduce the learning curve, the Web RCS offers dozens of unique features that make configuration and control a breeze.

Ready For Evolving Requirements

The LivePremier™ series offers almost unlimited possibilities for future applications and possesses enough power and bandwidth to support evolving requirements, such as HDR, 8K and more. Always listening to the needs of its customers and partners, Analog Way will add new features at a rapid pace to continually keep the LivePremier™ series at the forefront of innovation.
