### Live video compositing made easy!

AW VideoCompositor gives system integrators and developers all the tools they need to easily incorporate LiveCore<sup>™</sup> image processors video compositing into a single point of control Crestron<sup>®</sup> touch-screen application.

#### Key features

- ▶ Visualize all your screens with layers size and position (PRG or PRW)
- ▶ Use the touchscreen to resize or adjust layer position
- ▶ Visualize live sources with their dynamic thumbnail
- ▶ Drag and drop any source directly onto a layer
- ▶ Recall Presets or Master Presets and start seamless transitions
- ▶ Also compatible with Perspective Layer screens
- ▶ Change the native background instantly
- ▶ Configure the Monitoring mosaic with a simple flick of the finger
- ▶ Configure Confidence screen(s) layout and load Presets
- ▶ All Smart Graphics<sup>™</sup> modules can be customized to match the look and feel of your application
- ▶ Video Compositing Smart Graphics<sup>™</sup> module can be configured to match your exact screens configuration (pixel area, layers, ...)
- ▶ Compatible with 3-Series Crestron<sup>®</sup> control systems with Ethernet connection
- ▶ Compatible with any LiveCore<sup>™</sup> seamless switcher

#### Package includes

- ▶ The Smart Graphics<sup>™</sup> modules. They can be installed easily via the Windows setup application provided:
  - AW Video Compositor
  - AW Video Perspective Renderer (optional)
  - AW Frames/Logos Configurator (optional)
  - AW Text Entry (optional)
- ▶ The Crestron driver, controlling the advanced features of any LiveCore<sup>™</sup> AV processor
- ▶ A SIMPL+<sup>®</sup> example program
- ▶ A XPanel project running with the SIMPL+<sup>®</sup> sample program
- ▶ Help files in English
